

Retlif Testing Laboratories is a full service independent testing laboratory providing regulatory compliance testing and engineering services in the areas of Electromagnetic Compatibility and Environmental Simulation across all industry sectors. We are currently seeking a full time RF/Electronic Test Technician to join our EMC laboratory in our Ronkonkoma, NY location.

RESPONSIBILITIES :

The selected candidate will be responsible for, including but not limited to:

- Test sample preparation and setup
- Execution of tests following detailed procedures
- Clear and concise documentation of test results
- Strict adherence to quality policies and procedures
- Customer interaction
-

BASIC QUALIFICATIONS :

- Associates Degree in Electrical Engineering Technology/ Electronics or Trade School Certificate, or equivalent formal military training/work experience.
- Working knowledge of electronics measurement equipment (specifically DMM, Oscilloscope, and Spectrum Analyzer).
- Knowledge of basic electrical fundamentals (OHMs Law, AC wiring, etc.).
- Must have a background that would permit the U.S. Department of Defense to issue a Secret Clearance, which includes US Citizenship.
- Ability to follow instructions with multiple tasks in a fast-paced environment utilizing an organized approach.
- Strong math/logic skills.
- Strong interpersonal and communication skills.
- Self-motivated with an independent work ethic.
- Ability to lift 50 pounds-bend, lift and twist.
- Proficient in MS Word and Excel.
- Must be willing to work overtime as required.

DESIRED SKILLS :

- Background in MIL-STD-461, RTCA/DO-160, and IEC test standards.
- Experience with equipment qualification testing and associated certification schemes
- Five years of working experience with electronics.
- Working knowledge of RF Systems and/or Electronics
